

Juniors' winter training - Information and rules for parents and juniors

General information

We endeavour to keep our homepage updated with all important information and news. A lot of questions can already be answered by having a look at our homepage.

Please enrol your child only if it is his or her own wish to play tennis, since a single unmotivated player can slow down the progress of the whole group. If your child is not interested or motivated in improving his/her tennis skills we reserve all rights to suspend him or her.

We demand careful handling of our equipment and facilities. The party responsible is liable for wilful damages.

During the winter term, it's possible to watch the training from the entrée in the indoor tennis centre Lättich, Baar. In the air hall at Tennisclub Allmend there is no such facility, however, you may stay at the restaurant, where unfortunately no food or drinks are served during the winter.

We are convinced that for most children it is much easier to improve their tennis skills if they do not try to impress their parents and do not feel watched all the time.

Meeting with our coaches:

We are happy if you are interested in the sportive development of your child and once in a while would like to have a talk with our coaches. They however would be thankful if you contacted them in advance enabling them to prepare themselves for the conversation and set a date with you.

Winter training

Facilities

Our trainings take place at two different places:

Indoor tennis centre Lättich, Baar (Lättichstrasse 40, 6340 Baar)

Please drive to the end of Lättichstrasse, where you will see the indoor tennis centre on the left-hand side. Parking spaces are available next to the indoor tennis centre. Air hall at Tennisclub Allmend
For directions see www.tca-zug.ch/standort). The training takes place on court No. 1.

Enrolments

Juniors who have already been training at our club usually receive the enrolment form in August. All information on our courses and enrolment forms are also available on our homepage. We only accept written applications.

Arranging the groups

Our coaches are responsible for forming the groups mainly considering the applicant's playing ability. Due to the lower court charges in the air hall Allmend we offer the courses there at a reduced fee. You can tick your preference regarding the training facilities on the enrolment form. As far as possible we'll comply with your request. You will receive details about dates and times by e-mail.

Equipment

Please remember to bring sports clothes, a water bottle and for the indoor tennis centre Lättich clean, non-marking indoor tennis shoes. For beginners, we have a few rackets available. However, if a child takes lessons regularly, it is useful to buy an own racket.

Fees

The current fees for group trainings are published on our homepage. We also offer groups of 2 or private lessons on request.

Juniors' private lessons

We offer juniors' private lessons during winter term. For private lessons, we cannot guarantee that the training will always be held by the same coach. Due to high court costs, it is not possible to book private lessons only on a monthly basis or every second week.

During winter term the payment for private lessons is due for the whole season. If a junior has to cancel a private lesson later than 24 hours prior to the training, the whole fee will be charged. If a junior has to cancel a private lesson earlier we will try to switch the training to another day and time but you might be still charged for the court fees.

Trial lessons

New players have two possibilities:

- a) A trial lesson in a beginners' group: If they join us in the course of a training period, they will have to fit in with the timetable and the facility.
- b) Experienced players book a private session as a trial lesson. Besides the fee for the coach there are the court fees to pay as well. Dependent on the place of the trial lesson the fee will be between CHF 100 and CHF 140.

Shorter and less expensive trial lessons are possible but they cannot be guaranteed.

If you join the training in a group afterwards, we will charge you the fee for the remaining weeks.

Changes of the group-size

The bills for the winter term will be sent to you within two or three weeks after the training has started. Should the number of the group members change at a later stage the fee may be adjusted accordingly.
